

The Grasslands of the Horned Folk

Faction · Sovereign Minotaur Territory

Goals

Nominally sovereign Minotaur territory.

Nominally sovereign Minotaur territory. Every major Settled Lands nation has at some point attempted to absorb, colonize, administer, tax, or otherwise incorporate the Grasslands. None have succeeded. The Minotaurs speak Tarrun, leave almost no written records, and have a multi-thousand-year track record of successfully resisting outside governance.

The Grasslands are not ungoverned. They are governed by systems that outside nations have repeatedly failed to recognize as governance until it was too late.
